Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: claims are referenced in the specification. This should not be done, since claims may change during the prosecution of an application. Additionally, the different sections of the specification need to have headings. Furthermore, FIGS 2-4 appear to be two dimensional representations of the claimed invention and do not appear to be working embodiments, but rather illustrative embodiments. Please clarify.

Appropriate correction is required.

Claim Objections

2. Claims 1-5 are objected to because of the following informalities: as noted above, FIGS 2-4 appear to be illustrative embodiments only. Therefore, it has been assumed for examination purposes that the embodiments of FIGS 5 and 6 are the embodiments meant to be claimed. However, claims 1 and 2 refer to a pair of bases **20**, **20'** and a pair of intermediate carriers **21**, **21'**. However, the embodiments of FIGS 5 and 6 appear to have a single base **20** and a single intermediate carrier **21**. Furthermore, weight G is not defined (claim 1) and the phrase "as desired" does not further add additional structure to claims 4 and 5. Please clarify. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-5 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Waibel et al..

5. Waibel et al. discloses the invention as claimed where: **4** is a plate fixed to a base; members **11** are fixing points of equally long connects that are fixed such that they can move; **2** is a carrier that holds a load; **7** is an intermediate carrier; and the base, carrier and intermediate carrier are annular and concentric.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
